PROFILE

As a dedicated and innovative Full Stack Developer, I am committed to leveraging my technical expertise to create robust and efficient solutions. With a strong foundation in both front-end and back-end development, I thrive in collaborative environments where I can contribute to the entire software development lifecycle. My passion for crafting seamless user experiences combined with my proficiency in various programming languages and frameworks allows me to tackle complex challenges with creativity and precision.

I am driven by a continuous desire to learn and adapt to emerging technologies, ensuring that I deliver cutting-edge solutions that exceed expectations.

WORK EXPERIENCE

Web Developer Intern (Bharat Intern) - [Netflix](#) [WeatherApp](#)

Mar'24 - Apr'24

- In Portfolio Project, I learned about CSS Skills (horizontal / vertical selections), CV upload feature, Social Media Icons Integration.
- In Weather App, I learned Open Weather API Integration, Dynamic Weather updates with Javascript, User-friendly weather display.
- In Netflix Clone, I learned Video Streaming Functionality, Real-Time view count updates, responsive design principles

Web Developer Intern (LetsGrowMore) - [ToDoList](#) [Form](#) [Calculator](#)

Mar'24 - Apr'24

- Todo List: Implemented frontend with CSS and JavaScript, prioritized tasks through DOM manipulation, and integrated a database for task storage.
- Calculator: Implemented logic for expression evaluation using JavaScript, integrated 'e' functionality, and utilized various event handlers for user interaction.
- Registration Page: Developed user registration functionality and data display on the same page, leveraging Promises in JavaScript for asynchronous operations.

Web Developer Intern (Prodigy InfoTech) - [Landing](#) [StopWatch](#) [Tic-Tac-Toe](#)

Fe '24 - Apr'24

- Responsive Landing Page: Utilized CSS for card styling, implemented page routes and "Add to Cart" functionality for an e-commerce platform.
- Stop Watch Web App: Implemented play and pause functionality using JavaScript, similar to a music listening app's controls.
- Tic Tac Toe: Managed game states using arrays to determine the winner in a JavaScript-based Tic Tac Toe game.

Career Corps (Full Stack Developer)

July'23-May'24

- Enrolled in a comprehensive Full Stack Developer course at Career Corps, an esteemed online education center dedicated to fostering students' career growth.
- Received top-notch guidance and mentorship from industry experts, facilitating significant improvement in my skills and knowledge.
- Mastered the art of website design and development, honing proficiency in essential technologies such as HTML, CSS, and JavaScript.
- Acquired expertise in building dynamic and interactive web applications using cutting-edge frameworks like ReactJS and Node.js.
- Developed a deep understanding of database management, particularly in MongoDB, and learned effective strategies for storing and retrieving information.
- Expanded my skill set to include designing robust models for websites, enabling the creation of scalable and efficient web solutions.
- Successfully applied theoretical concepts to real-world projects, gaining hands-on experience and enhancing problem-solving abilities.
- Demonstrated creativity and innovation in implementing captivating animations and user interface designs to deliver engaging user experiences.
- Proactively engaged in continuous learning and professional development, staying abreast of the latest industry trends and best practices.
